Percentage - 68.80 %

PROJECTS

Smart Highway: Smart road safety and Vehicle Accident Prevention System For Mountain roads using Wi-Fi and GPS.

May 2021

- The motive is to decrease the number of accidents in curve roads. This is done by alerting the driver by means of buzzer which sounds when vehicle comes from the other side of the curve. The vehicle is detected by the help of Ultrasonic sensor which is interfaced to the microcontroller NodeMCU.

Online movie ticket booking system

Jan, 2023

- Users can choose their seats from an interactive seating plan. The system provides real-time updates on seat availability, ensuring an accurate and convenient booking experience.
- Payment gateway for secure and hassle-free transactions. After successful payment, users receive a booking confirmation along with an e-ticket that contains essential details like movie title, showtime, cinema location, and seat numbers.

Agugust, 2023

Qspiders, Pune

- With the help of technologies like HTML, CSS & JS developed multiple user interfaces and connected with back-end using JAVA.Gained hands on experience by building multiple full stack development projects.

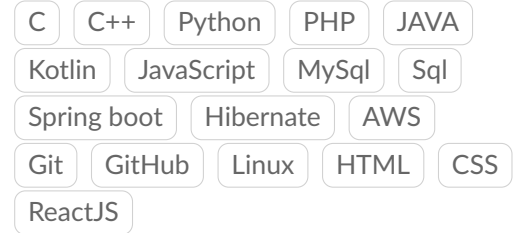

Web Development (Internship)

August, 2023

CodeSoft, Online

- With the help of technologies like HTML, CSS & JS developed multiple user interfaces and connected with back-end using JAVA.Gained hands on experience by building multiple full stack development projects.

SKILLS

FIELD OF INTEREST

- Full Stack Development
- Android Development
- Cloud Computing
- Web Development
- UI/UX Design

COURSEWORK

- Data Structure & Algorithms
- Database Management System
- Operating Systems
- Object Oriented Programming
- Software Engineering
- Java Full Stack development

ACHIEVEMENTS

- State level Paper Presentation Competition
- Solved 400+ coding problems on various coding platforms
- National Level Project Idea Competition organised by BMIT
- Completed Workshop Smart Girl By Bharatiya Jain Sanghatana

HOBBIES

- Cooking
- Travelling
- Crafting
